PROFESSIONAL SUMMARY

Visual Designer with 5+ years of experience crafting scalable brand identities, editorial layouts, and digital interfaces. Specializes in bridging high-fidelity aesthetics with technical realism by building comprehensive design systems, establishing strict typography scales, and defining UI color tokens. Leverages a strong foundation in front-end development (Vue, TypeScript) to ensure pixel-perfect developer hand-offs and cross-device visual consistency.

PROFESSIONAL EXPERIENCE

Graphic Designer (Contract) Canada's Top 100 Employers, Toronto, ON	Sept 2024 – Present
- Engineered and maintained 20+ reusable layout templates in Adobe InDesign, cutting digital and print production turnaround by an estimated 30% across weekly deliverables. - Optimized dense single-page assets into highly readable multi-page layouts, strictly managing typography spacing and visual hierarchy. - Collaborated directly with 2 project managers to translate creative briefs into polished, production-ready design deliverables under tight deadlines.	
Graphic Designer (Remote) Freelance	Sept 2021 – Jul 2024
- Built scalable Figma layouts and vector grid systems, bridging the gap between visual identity design and digital execution. - Designed complex information architectures focused on maximizing readability, content alignment, and structural grid logic. - Managed full-lifecycle production for digital and print media, delivering standardized UI component style guides to diverse clients.	
Graphic Design Assistant Stellar Biotics LLC	Aug 2020 - Aug 2021
Assisted in preparing and structuring presentation decks and visual asset files for internal and client-facing use.	

PROJECTS

SwiftVenture & Arcane Bookstore

Personal Projects

(Illustrator, Photoshop, Figma)

- Developed comprehensive visual architecture and scalable brand systems optimized for both print and digital interface integration.
- Established strict typography scales, modular vector components, and standardized UI color tokens for seamless developer hand-offs.
- Engineered responsive vector construction grids to ensure visual consistency across large-format assets and mobile UI components.

Interactive Portfolio Web Application

2026

Personal Project

(UI/UX Design, Vue 3, CSS3)

- Designed and custom-coded a responsive digital portfolio to showcase visual design systems and UI component architecture.
- Structured complex project data into a highly scannable digital interface, utilizing rigid alignment and strategic negative space.
- Implemented strict CSS layout logic to guarantee cross-device responsiveness, resolving viewport constraints for optimal mobile viewing.

SKILLS

-
- Design & UI/UX: Figma, Design Systems, Responsive Layouts, Typography, Information Architecture, Component Libraries
 - Design Tools: Adobe Illustrator, Adobe InDesign, Adobe Photoshop
 - Front-End Implementation: HTML5, CSS3 (Tailwind CSS), Vue 3, TypeScript, Web Typography
